To Whom it may Concern:

I moved to Weddington thirteen years ago and have needed Providence Volunteer Fire Department on three occasions for a medical emergency. Each incident involved a dislocated hip resulting in severe pain and total immobility.

The Providence Volunteer Fire Department arrived in each case very quickly and were able to stabilize my hip and leg after checking all my vital signs before the EMS ambulance arrived.

It has been a comfort knowing that Providence Volunteer Fire Department is staffed 24 by 7 by highly trained fire fighters.
